

LAC 932

CLEANER

CUSTOMER: REMANUFACTURER

PRODUCT

LAC 932 is recommended for use on aluminum and steel substrates to remove burnt on carbon deposits, oily greasy soils, and light oxides.

BENEFITS

Specifically formulated to improve cleaning quality with the following features:

- Safe on both ferrous and aluminum substrates
- High temperature stable/hard water stable
- Low foaming for use in high pressure spray cabinets
- Increased detergency for oil and grease removal
- Short term flash rust and corrosion protection
- Light oxide removal
- Burnt on carbon removal

PROCESS AND EQUIPMENT

Industry/Market	Heavy Mobile
Product Type	Industrial Cleaner
Product Number	4800300000
Machinery Involved	Single Stage Washer
Description of Environment	Remanufacturing of heavy equipment
Volume Used	12 Drums
Date of Use	April 2016
Documented Cost Savings	\$26,000

▷ DESCRIPTION OF PROBLEM

The customer has a single stage washer for ferrous and non-ferrous parts. The ferrous parts require indoor rust protection. The customer could not find a compatible cleaner with the appropriate rust protection and would experience flash rust on cleaned parts.

▷ SOLUTION

The washer was charged with LAC 932 using 15% concentration. The cleaning of smut and dirt has improved on both the ferrous and non-ferrous parts. The indoor rust prevention is working well and they haven't experienced any flash rust.

▷ CUSTOMER TESTIMONIAL

The customer is extremely grateful that we were able to provide a solution to their problem.
